

200FZY6-S JiuLong 220VAC 200mm Full Metal Axial Fan Datasheet

Brand: Jiulong

SKU: 912235159539

Category: Axial & Centrifugal Fans

Price: **\$72.99**

E-mail: sales@equipspares.com

Product Description

The JiuLong 200FZY6-S is a robust industrial AC axial fan designed for high-performance thermal regulation in demanding environments. Featuring a durable full metal impeller and housing, this unit provides exceptional structural rigidity and heat resistance, ensuring reliable operation under significant thermal impedance. The AC motor architecture delivers consistent airflow and static pressure, making it a critical component for maintaining optimal operating temperatures in heavy-duty machinery and power electronics systems where durability is paramount.

Model Number: 200FZY6-S

Brand: JiuLong

Product Type: Industrial Axial Fan

Rated Voltage: 220VAC

Power: 80W

Frequency: 50/60Hz

Blade Material: Full Metal

Housing Material: Metal

Structure: External Rotor Motor

Application: Welding Machine Cooling

Condition: New

Cooling Type: Active Air Cooling

The 200FZY6-S is engineered for direct integration into electric welding machines, ensuring critical

components remain within safe thermal limits during extended duty cycles. Beyond welding apparatus, the 200FZY6-S is widely utilized in industrial control cabinets, CNC machinery, and power supply units where reliable, high-volume airflow is required to prevent overheating. Its rugged metal design allows it to withstand the vibration and heat typical of these industrial applications.
