

# 6915PC-20W-B20-S12 NMB-MAT 200VAC 172x150x38mm Metal Axial Fan Datasheet

**Brand:** NMB

**SKU:** [997433455692](#)

**Category:** Axial & Centrifugal Fans

**Price:** **\$94.99**

**E-mail:** [sales@equipspares.com](mailto:sales@equipspares.com)

**Web:** <https://www.equipspares.com>

## Product Description

The NMB-MAT 6915PC-20W-B20-S12 is a robust AC Axial Fan engineered for demanding industrial environments requiring high thermal impedance management. This unit features a full metal housing and aluminum impeller construction, ensuring exceptional structural rigidity and resistance to high-temperature operations. Utilizing advanced motor technology with dual-frequency capability, it delivers consistent aerodynamic performance. The integration of B30 thermal protection safeguards the motor against overheating, making it a reliable solution for continuous duty cycles in harsh operating conditions.

Model Number: 6915PC-20W-B20-S12

Brand: NMB-MAT

Product Type: AC Axial Fan

Rated Voltage: 200 VAC

Frequency: 50 / 60 Hz

Input Power: 25 / 28 W

Dimensions: 172mm x 150mm x 38mm

Housing Material: Metal (High-Temperature Resistant)

Impeller Material: Aluminum

Bearing Type: Ball Bearing

Protection: B30 Thermal Protection

Mounting: Flange Mount

Current Type: AC

Phase: Single Phase

Application: Industrial Cooling

Designed for critical thermal regulation, the 6915PC-20W-B20-S12 excels in high-stress industrial applications such as injection molding machines and large-scale electrical control cabinets. Its robust metal construction makes it particularly suitable for UPS power supply units where reliability is paramount. The 6915PC-20W-B20-S12 ensures consistent airflow to prevent component failure in enclosed electronic systems, maintaining optimal operating temperatures for automation equipment and power distribution infrastructure.
