

GL15050 TOPCOOL 220VAC 150x150x50mm Industrial Fan Datasheet

Brand: TOPCOOL

SKU: 1001397037807

Category: Axial & Centrifugal Fans

Price: \$16.99

E-mail: sales@equipspares.com

Web: <https://www.equipspares.com>

Product Description

The TOPCOOL GL15050 is a robust AC Axial Fan designed for demanding industrial thermal management applications. Engineered with a high-grade aluminum alloy housing, this unit offers exceptional structural rigidity and heat dissipation properties, ensuring durability in harsh operating environments. The internal architecture features a precision double ball bearing system, which significantly reduces friction and extends the operational lifespan under continuous load. Its aerodynamic blade design is optimized to deliver high airflow volume while maintaining reliable performance, making it a critical component for maintaining system integrity in power distribution and automation sectors.

Model Number: GL15050

Brand: TOPCOOL

Product Type: AC Axial Fan

Rated Voltage: 220VAC

Power: 28W

Dimensions: 150x150x50mm

Bearing Type: Double Ball Bearing

Housing Material: Aluminum Alloy

Termination: 2-Wire Lead

Mounting Type: Flange Mount

Application: Industrial Cabinet/Distribution Box

Condition: New

The GL15050 is specifically engineered for critical cooling in industrial infrastructure, including electrical distribution boxes and server cabinets. Its robust construction allows the GL15050 to operate effectively in manufacturing environments where reliable thermal regulation is essential for CNC machinery, power supply units, and automation control panels.
