

KF0715H1SABR Jamicon 12VDC 70x70x15mm 3-Wire Axial Fan Datasheet

Brand: Jamicon

SKU: [758022389010](#)

Category: Axial & Centrifugal Fans

Price: **\$14.99**

E-mail: sales@equipspares.com

Product Description

The Jamicon KF0715H1SABR is a precision-engineered DC axial fan designed for high-reliability thermal management in critical power systems. Utilizing advanced HTLS (High Temperature Long Life Sleeve) bearing architecture, this component offers a balance of structural rigidity and reduced friction, ensuring consistent performance and acoustic dampening. The unit features a 3-wire configuration, supporting tachometer signal output for real-time speed monitoring, making it ideal for precision cooling applications where thermal impedance must be minimized. Its aerodynamic design optimizes airflow efficiency while maintaining operational stability in compact enclosures.

Model Number: KF0715H1SABR

Brand: Jamicon

Product Type: DC Axial Fan

Rated Voltage: 12VDC

Rated Current: 0.41 A

Power: 4.92 W

Dimensions: 70 x 70 x 15 mm

Bearing Type: HTLS

Termination: 3-Wire Lead

Speed Control: Tachometer Signal

Application: UPS, Power Supply, Heatsink

The KF0715H1SABR is specifically engineered for integration into Santak UPS systems and high-density power supply units. Its compact 70mm footprint allows for seamless installation in space-constrained enclosures such as server racks and computer heatsinks. The KF0715H1SABR ensures optimal heat dissipation for sensitive electronic components, preventing thermal throttling in continuous-duty industrial and consumer electronics.
