

LF40A09 SEPA 9VDC 40x40x10mm Silent Cooling Axial Fan Datasheet

Brand: SEPA

SKU: [1007964487066](#)

Category: Axial & Centrifugal Fans

Price: **\$4.99**

E-mail: sales@equipspares.com

Product Description

The SEPA LF40A09 is a specialized DC Axial Fan designed for efficient thermal regulation in compact electronic environments. Engineered with a 9VDC motor and a low-current profile of 0.05A, this unit prioritizes silent operation while maintaining consistent airflow. The 40x40x10mm chassis is built for structural integrity, housing an aerodynamic impeller that minimizes turbulence and acoustic noise. This cooling solution is optimized for applications where space is constrained and acoustic performance is critical, ensuring reliable heat dissipation for sensitive components.

Model Number: LF40A09

Brand: SEPA

Product Type: DC Axial Fan

Rated Voltage: 9VDC

Rated Current: 0.05 A

Power: 0.45 W

Dimensions: 40 x 40 x 10 mm

Termination: 2-Wire Lead Wires

Noise Level: Low Noise (Silent Profile)

Bearing Type: Precision Bearing System

Max. Air Flow: Data Not Available

Max. Static Pressure: Data Not Available

Rated Speed: Data Not Available

Life Expectancy: Data Not Available

Operating Temperature: Data Not Available

Housing Material: Industrial Grade Thermoplastic

The SEPA LF40A09 is engineered for integration into compact electronic assemblies and precision instrumentation. It is frequently deployed in small form-factor computers, diagnostic devices, and industrial control units where internal space is at a premium. By delivering consistent airflow with minimal acoustic footprint, the LF40A09 effectively manages thermal loads in server racks, telecommunications gear, and audio-visual equipment, preventing overheating and ensuring system stability.
