

MGA5012XR-O20 MAGIC 12V 0.24A High Speed DC Cooling Fan Datasheet

Brand: Protechnic

SKU: [805812597043](#)

Category: Axial & Centrifugal Fans

Price: **\$14.99**

E-mail: sales@equipspares.com

Product Description

The MAGIC MGA5012XR-O20 is a robust industrial DC axial fan engineered for efficient thermal management in compact electronic devices. Featuring a high-speed motor and durable construction, this unit ensures reliable airflow and extended operational life, making it an ideal replacement or OEM component for precision equipment.

Manufacturer: MAGIC (Protechnic Electric)

Model Number: MGA5012XR-O20

Product Type: DC Axial Cooling Fan

Rated Voltage: 12VDC

Rated Current: 0.24A

Bearing Type: Dual Ball Bearing

Termination: 2-Wire Lead Interface

Frame Size: 50mm Series

Material: Thermoplastic PBT (UL94V-0)

Application: Electronic Equipment Cooling

Condition: New Original

Engineered for versatility, the MGA5012XR-O20 serves as a critical cooling component in various electronic assemblies, specifically optimized for humidifiers and computer chassis. Its dual ball bearing design allows for continuous operation in demanding environments, effectively dissipating

heat to prevent thermal throttling. The compact form factor ensures compatibility with space-constrained enclosures requiring active ventilation.
