

109P0624H7D19 Sanyo Denki 24VDC 0.06A 60x60x15mm Axial Fan Datasheet

Brand: Sanyo Denki

SKU: [899561661609](#)

Category: Axial & Centrifugal Fans

Price: **\$16.99**

E-mail: sales@equipspares.com

Product Description

The Sanyo Denki 109P0624H7D19 is a DC Axial Fan engineered to deliver reliable thermal management within compact industrial enclosures. Utilizing advanced brushless DC motor technology, this unit ensures efficient power consumption while maintaining optimal rotational stability. The fan incorporates a precision dual ball bearing architecture, significantly reducing friction and enhancing the overall structural rigidity and life expectancy of the assembly. Its aerodynamic blade design is optimized to minimize thermal impedance, providing a consistent and directed airflow essential for sensitive electronic components. The integration of a 3-wire configuration allows for accurate speed monitoring, making it an ideal solution for systems requiring strict thermal regulation and continuous operational feedback.

Model Number: 109P0624H7D19

Brand: Sanyo Denki

Series: San Ace 60

Product Type: DC Axial Fan

Rated Voltage: 24 VDC

Rated Current: 0.06 A

Power Consumption: 1.44 W

Rated Speed: 4600 RPM

Bearing Type: Dual Ball Bearing

Dimensions: 60 x 60 x 15 mm

Termination: 3-Wire (Lead wires)

The 109P0624H7D19 is highly suited for integration into compact server racks, telecommunications equipment, and automated CNC control cabinets where space is at a premium. Medical devices and diagnostic equipment also benefit from the reliable cooling profile provided by the 109P0624H7D19, ensuring sensitive internal components remain within safe operating temperatures. Furthermore, its robust construction makes it an excellent choice for industrial power supplies and networking hardware that demand continuous, uninterrupted thermal management.
